10. What do you like about this module?

Your comments:

○ I like the lecturers inclusion of humour in the lectures, which can lighten what can seem like a heavy session of applied Maths.

○ Also, his passion for the subject is evident in the classes.

○ I enjoy how relevant all the course content is and while it is manageable, still creates a challenge.

Your comments:

Excellent module, Michel is a brilliant lecturer, the best I have this semester. Module is well organised, and lectures + materials were all made available to student. Tutorials are incredibly helpful, Richie is a fantastic tutor. ~~AP is probably the best organised module and~~ I only wish more modules were like it!

## 10. What do you like about this module?

Your comments:

- Michel is a great lecturer. His mixture of serious topics from the course & his maths movie quizes keep the majority of students genuinely focused.
- The course notes are well laid out and mostly easy to follow.
- The time on Michel's iPad is stuck on 9:41 on Tuesday the 9th of January. It is entertaining ☺

This questionnaire will allow you to describe, in a systematic way, your experience of this module. Please respond to every item; think about your experience of this particular module and answer the questions as honestly as you can, indicating how strongly you agree with each of the statements. Please use the text-boxes at the end of the survey to elaborate further on any point. Your constructive feedback will help us refine and improve the module delivery and design. Your answers are strictly confidential and anonymous.

Please use a dark coloured pen or pencil and completely fill answer boxes.

## 10. What do you like about this module?

Your comments:

I like the challenge it provides, it feels very satisfying to do and it's not straight up memorizing garbage like biology - I also love the lecturers, they have a lot of personality and charm that make the classes really fun.

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments:

If I had to think of one thing, which was difficult, then maybe have things like quizzes every unit or some graded assessment. This is so people could have a reference when the exam comes and also have something to "check" their knowledge of that units to see if they are doing well or not. In semester 2, the first unit, circular motion, took around 3 weeks until I got the hang of the unit. So a quiz would of been nice at the time. That's my only gripe though.
