10. What do you like about this module?

Your comments:

Lectures, materials, notes are all enjoyable

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments:

A better tutor. He justs writes his answers on the board really quickly and rubs them off. He doesn't answer any questions or offer any insight to any of the material covered.

10. **What do you like about this module?**

Your comments:

The lectures are very good and the lecturer explains the material very well.

11. **What suggestions can you offer that would help make this module a more valuable learning experience for you?**

Your comments:

Explain more of the material in the tutorials about some of the methods used when solving the problems.

Your comments:

Lecturer is excellent and very engaging. order of lecture material is very well structured and follows online notes well.

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments:

Some steps can be skipped in lecture when going over examples. It would be helpful for all of the steps to be included in online notes for the purpose of revision.

**10. What do you like about this module?**

Your comments:

Very clear presentation

---

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments:

A bit more background on the methods would be nice. It would also be helpful to have a clear idea of where the methods used break down
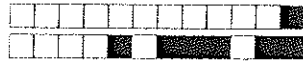

10. What do you like about this module?

Your comments:

Not too serious

Very approachable

Very clear lectures

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments:

A bit more clear when talking

Would like tutor to explain his work as he goes through it
and explain what he's doing and not just
write his notes on the board and not able to solve
any mistakes he makes during the tutorial.
Tutor's writting could always improve.

10. What do you like about this module?

Your comments: Continuation from 2nd year familiar and comfort so it's easy to follow

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments: The tutorial & lectures themselves are ∧ seamingly unprepared.

Desirade Seems to be going through the motions.

10. What do you like about this module?

Your comments:

Module is well organised.
Easy to follow and described
   well enough to understand.

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments:

Tutorials are very unhelpful.
It seems tutor doesn't know
what he is doing.
Not all questions are being done.
I attend all tutorials but have
   yet to find reason to
continue with current
tutorial and tutor

Cannot
follow most
of what
tutor is
saying

Consider changing tutor / providing
   solutions to all problem sheet
      questions.

## 10. What do you like about this module?

Your comments:

- The lectures are very clear
- I understand the methods and the reasons for them
- I like the quizzes but I think some people find them a waste of time

11. What suggestions can you offer that would help make this module a more valuable learning experience for you?

Your comments:

- The ~~tutor~~ could stand less in front of the board in tutorials

10. What do you like about this module?

Your comments:

- The lecturer makes the material feel very understandable and quite easy to follow.
- The sense of lightedness to the lectures due to Michel's good sense of humour.
- The way material is clearly presented, in an easy to follow fashion.
- The promotion of well-being & career guidance events by the lecturer. & I always end up leaving the lecture in a good mood.
- Movie quizzes!

**11. What suggestions can you offer that would help make this module a more valuable learning experience for you?**

Your comments:

- Suggest recommended texts
- Post more relevant material on Blackboard, including solutions to tutorial problems.
