1	Extremely happy with the Lecturer. He is very enthusiastic and will do his best to help you if you have a problem. Easily the most enjoyable lecturer to listen to that I've had.	11/26/2015 9:30 PM
2	Michel Destrade is my favourite lecturer! He's interesting, hilarious, and goes to a lot of effort with us students. If I could have every module taught to me by Michel, I would!	11/26/2015 7:39 PM
3	Michel is an excellent lecturer and he took the time to learn people's names which was nice instead of always feeling anonymous to the lecturer. It made him more approachable. He added humour to the lectures which was refreshing. He also explained things clearly. He seemed invested in his students. He always told us about the student counselling services in case we were struggling with anxiety. This made me think that he cared more about his students well being than them getting excellent grades. Also after our second class test everyone was a bit down because the grades weren't great but Michel made us feel better by telling us he failed his second year of undergrad. This made him seem more human. I look forward to having him again next semester.	11/26/2015 2:17 PM

| 4 | Great lecturer! Could maybe use more examples on Blackboard but it's a small issue. | 11/26/2015 12:44 PM |

Q2 What suggestions can you offer that would help make this module a more valuable learning experience for you ? What in your opinion should be started, stopped and/or continued.

1	I think that the tutor could be more approachable. He spoke very little, but the examples he did were very useful. Michel on the other hand is the complete opposite, he talks to his students, and I think it's really nice of him that he tried to learn all of our names. His jokes, and riddles are the best, and he keeps a very relaxed atmosphere in lectures without compromising our studies. I give him 10/10. Also shout out to Jerome Sheahan. He doesn't have anything to do with the course, but he's the nicest person ever, and since he's not my lecturer I'm hoping someone will forward the message to him. All students studying late in the maths building are grateful for your existence.	11/28/2015 8:23 PM
2	Michel Destrade is a great lecturer. Hold onto him	11/27/2015 11:20 AM
3	continue with the tutorials, as it's my only module with ongoing tutorials throughout the semester and they are very helpful. The more examples that are given to us, the easier the course is to learn.	11/26/2015 9:32 PM
4	I liked all the worked examples that were done in-class. We were allowed to vote on when we wanted to our class-tests, which was nice as often our assignments and tests get scheduled for the same week which can be stressful.	11/26/2015 7:46 PM
5	Continue as is. Everything was great	11/26/2015 3:18 PM
6	Less "Special" Equations, series solutions started getting a bit nauseating at that stage and it seemed very repetitive. More complex analysis. I took a module in complex analysis last year and I think you could add in more. Maybe more detail of the concepts or extra topics like mobius transforms.	11/26/2015 2:23 PM
7	The tutorials aided in my overall understanding and ability to utilise concepts taught in lectures. Also, the continuous assessment for this module helped as it gave a chance to undergo exam-like questions under time constraint (class tests).	11/26/2015 1:04 PM
8	The tutor could do with some more confidence.	11/26/2015 12:42 PM
9	Module was very well taught, lecturer was very enthusiastic and this was motivating	11/26/2015 12:34 PM

Module Feedback Questionaire

This questionnaire will allow you to describe, in a systematic way, your experience of this module. Please respond to every item; think about your experience of this particular module and answer the questions as honestly as you can, indicating how strongly you agree with each of the statements. Please use the text-boxes at the end of the survey to elaborate further on any point. Your constructive feedback will help us refine and improve the module delivery and design. Your answers are strictly confidential.

Please use a dark coloured pen or pencil and completely fill answer boxes.
