1. Please answer the following

■ Agree ■ Disagree

I know where to find the module descriptor and associated learning outcomes for this module.

I am clear in what I am expected to do in the module each week.

The Blackboard page and resources for the module are well organised. The Blackboard page and resources for the module are well organised and easy to find.

The quality of the module is good (e.g. video content, PDF/powerpoint...)

I don't have difficulties using the learning materials provided.

100% 0%

2. Please rate the following statements

■ Agree ■ Agree somewhat ■ Unsure ■ Disagree somewhat ■ Disagree

The module resources and tuition are helping me learn.

The lecturer(s) is (are) responsive, helpful and effective.

The tutorial/interactive online session is supportive and helps to answer my questions.

The feedback I have received is helping me to improve my learning.

I feel part of a class, rather than an individual learner on my own.

The lectures are clear and well prepared

ID	Name	Responses
1	anonymous	The module is structured very well. In each lecture it is clear what we are trying to solve and why it is going to be useful.
2	anonymous	The lecturer
3	anonymous	Michel makes a relatively boring module fun. Sairam is also great at explaining things
4	anonymous	I like the maths movie quizzes. Keep at them, dont listen to the naysayers!
5	anonymous	The module delivers in teaching exactly what it sets out to.

4.

What suggestions can you offer that would help make this module a more valuable learning experience for you ?

1 responses [1 Responses](#)

ID	Name	Responses
1	anonymous	For the tutorial to slow down or have more than 1 tutorial a week
