

1010. What do you like about this module ?

9Responses

ID	Name	Responses
1	anonymous	The lecturer is insightful and brings a fun aspect to the lectures.
2	anonymous	It is well organised.
3	anonymous	Graham Ellis has a clear passion for the subject and as a result it is much easier as a student to embrace the topics.
4	anonymous	Very interesting and helpful lecturer
5	anonymous	the lecturer
6	anonymous	Well Organised Interesting
7	anonymous	It's interesting
8	anonymous	Graham
9	anonymous	The tutorials are well prepared and the tutor seems very knowledgable. Lecturer keeps the lectures interesting.

11. What suggestions can you offer that would help make this module a more valuable learning experience for you ?

4Responses

ID	Name	Responses
1	anonymous	A more concise introduction to the subject of topology
2	anonymous	Tutorials go very quickly Too much content for the test
3	anonymous	Lectures and tutorials feel somewhat disjoint could add more context to problem sheets
4	anonymous	The student paper that is part of the continuous assessment is a lot more work than an in-class test and yet they carry the same percentage, maybe this could be looked into for future years.
